

Transform Managers into Champions in a Single Day

Purpose:

Equip senior leaders and managers (Champions) with the knowledge, tools, and mindset to effectively sponsor/support and lead Continuous Improvement (CI) initiatives.

Key objectives:

- ✧ Understand the core principles of Lean and Six Sigma
- ✧ Recognise the Champion's role in selecting and sponsoring improvement projects
- ✧ Learn how to effectively support teams and remove barriers to progress
- ✧ Build awareness of critical success factors for sustainable change
- ✧ Develop the ability to align CI activities with business goals

Benefits:

- ✧ Accelerated improvement through aligned leadership and clear sponsorship support
- ✧ Clear understanding of change management support needs
- ✧ Better project prioritisation and resource allocation
- ✧ Built culture of continuous improvement
- ✧ Improved business performance and customer satisfaction

Topics Covered

- ✧ Key Principles of Lean & Six Sigma
- ✧ Improvement Techniques – Snapshot
- ✧ The Champions Role & Managing Change
- ✧ Continuous Improvement Critical Factors

Invest £2,000 for up to 12 leaders and managers to partake in a 1-day course.

Start Dramatic Business Improvement In Just Two Days

Join us for a hands-on course that shows your team how to see their business in a whole new way.

Take the first step toward substantial team and factory performance improvement – via engaging activities, simulations, and real factory scenarios.

Plug In and Learn

Get hands-on with the Plug Game, a fun, practical, fast-paced factory simulation where you'll go beyond theory to see Lean in action.

Interaction, Not Just Information

Not a lecture, it's packed with exercises and group challenges to get your team thinking about what they can do differently in their own factory.

Fluere's Lean Companion

Every attendee receives Fluere's Lean Companion, a practical, comprehensive guide you'll use again and again to apply your training in the workplace.

2-Day Lean Techniques Training Course

Topics Covered

- Key principles of lean
- Value-adding and wasteful activities
- Value Stream Mapping (VSM)
- Factory layout and cells
- 5S and the visual workplace
- Single piece flow and set-up reduction
- Product flow and bottleneck management
- Load charts
- Pull and Kanban systems
- Process capability and quality

Call us now on 01484 711462 to start working smarter, not harder.

"I very much enjoyed the plug game; it was simple but really got the points across that we had discussed in the training."

Richard Flanagan
Panel Wirer and Site Engineer

Venue:

Kirkdale House
Armytage Road, Brighouse
HD6 1QF

Upcoming Dates:

- 24th & 25th June 2025
- 7th & 8th October 2025
- 3rd & 4th February 2026
